Hi Jie Lun,

Please ignore earlier email sent. Please refer to this instead. Thanks.

- Your key responsibilities include:
- Be part of a regional FP&A team, working closely with and supporting the FP&A managers
 - Help prepare, review and analyse financial results and reports (revenue and cost)
 - Provide accurate and timely reporting of key financial and business insights, to influence key stakeholders and to drive sound business decision making
 - Provide support during the annual planning cycle as well as quarterly forecasts
 - Highlight financial and operational gaps to plan, as well as opportunities to drive revenue and optimise cost
 - Assist in driving process improvement and/or implementation of new systems and tools to achieve greater efficiency and accuracy in reporting
 - Any other ad-hoc tasks assigned.

We've put together a package that considers your financial needs, including other benefits that we hope will help you focus on our mission.
